

HAPEE Ears For Early Years

Hearing Assessment Program - Early Ears

Testing bub's ear health and hearing is simple and easy to do.

Step
1

A health worker, nurse or GP will ask some questions about bub's health and ears.

Step
2

They will ask some questions about how bub hears at home and how well they yarn.

Step
3

They will look at bub's ears to check for any problems.

Step
4

Bub will have a hearing test. This may include playing games.

Step
5

If bub has any ear disease or any trouble hearing, they will be provided with further treatment and support.

Hearing Australia's HAPEE program offers free* hearing checks to kids and bubs aged 0-6 and ongoing support and advice for parents to help prevent the long-term effects of ear and hearing troubles in young Aboriginal and Torres Strait Islander children.

Help your kids have HAPEE ears. Call 134 432 for a free* hearing check.

* The Hearing Assessment Program is an initiative of the Commonwealth Department of Health. Aboriginal and Torres Strait Islander children aged 0-6 or not yet attending full time school are eligible to be seen. All services provided under this program are free of charge. A hearing check includes a number of age appropriate tests of hearing and middle ear function.
